Trivantage® Launches New Seamstick Taper Tool

BURLINGTON, N.C., Feb. 29, 2024 —Trivantage, a one-stop shop for fabrics, hardware, and accessories, has launched the Seamstick Taper, a convenient tool that makes it easy to apply seam tape to zippers, webbing, and trim. Designed by a fabricator, this ingenious tool makes quick work of a seam tape application, providing placement on one or both edges with no bleed over.

“We understand that applying seam tape can be a tedious task, which is why we brought on this fabricator-designed tool to help speed up the process,” said Keith Purves, business development and training manager at Trivantage. “The Seamstick Taper ensures consistent, precise tape placement, helping fabricators improve accuracy and save valuable production time.”

The Seamstick Taper works by applying ¼” seam tape to the edges of many different sizes of zippers, webbing, and trim. It’s simple to use. To apply the tape, attach the quick-switch tool block to the application, insert the zipper or trim, and pull through the taper tool for effortless seam taping. The Seamstick Taper comes with a #10 Tooth tool block, but other sizes are sold separately including a #8 Tooth, #10 Coil, 1.5” Facing/Webbing, and 2.0” Facing/Webbing.

“At Trivantage, we’re always seeking new ways to make our customers' lives easier,” said Lindsay Shakarjian, marketing director. “We hope that the Seamstick Taper helps streamline the fabrication process so our customers can increase efficiency and continue to deliver exceptional work.”
